DETAILED ACTION

Response to Arguments

1. The arguments of Application No. 09/856916 filed on July 28, 2005 regarding claims 1, 6, and 7 have been respectfully considered, and are persuasive.

Allowable Subject Matter

2. LIMITATION WHICH INVOKES 35 U.S.C. 112, SIXTH PARAGRAPH 35 U.S.C. 112, sixth paragraph states that a claim limitation expressed in means-plus-function language "shall be construed to cover the corresponding structure...described in the specification and equivalents thereof." "If one employs means plus function language in a claim, one must set forth in the specification an adequate disclosure showing what is meant by that language. If an applicant fails to set forth an adequate disclosure, the applicant has in effect failed to particularly point out and distinctly claim the invention as required by the second paragraph of section 112." In re Donaldson Co., 16 F.3d 1189, 1195, 29 USPQ2d 1845, 1850 (Fed. Cir. 1994) (in banc). The Applicant defines a "separate transmitting means" (of claim 1) as a lever that is between a blocking element and a switching element (p. 11, line 31-p. 12, line 15 and Fig. 8, wherein transmitting means is "25". Therefore, claims 1-9 are allowable over prior art, because prior art of record does not disclose the transmitting means (as defined by the Applicant).
